python http_server.py

Screenshots:

Server Side:

```
Developer PowerShell
+ Developer PowerShell
PS C:\Users\kerim\OneDrive\Documents\CS372\projects\project4> C:\Users\kerim\AppData\Local\Programs\Python\Python310\python.exe server.py
Received: Hey what's up brooo
Response: HEY WHATS UPPP, HOWS IT GOING?
Received: nothin much man nothin much, just gotta finish this programming assignment real quick
Response: Gotcha, well good luck on that, hopefully you get a good grade
Received: We can only hope
Response: /q
PS C:\Users\kerim\OneDrive\Documents\CS372\projects\project4>
```

Client Side:

```
Developer PowerShell
+ Developer PowerShell
PS C:\Users\kerim\OneDrive\Documents\CS372\projects\project4> C:\Users\kerim\AppData\Local\Programs\Python\Python310\python.exe client.py
Message: Hey what's up brooo
Received: HEY WHATS UPPP, HOWS IT GOING?
